Freelancer Response:
"Thanks for the excellent feedback. The project entails development of a Codeigniter based web application for Job Management. The web application has multiple up-loader, i.e. users can upload any type of file at a glance. The site has separate download sections for Jobs that allow users to download brochures, user guides and product specific PDFs. Additionally, we have integrated Data table for managing Jobs which helps the user to easily search and manipulate data. We thank you for your continuous involvement and your easy availability for our queries that has helped us develop the application as per your requirements. It has been a pleasure working with you and we look forward to working with you for a long time to come. Thanks again"

Quality Expertise Cost Schedule Response Professional

Oct 1, 2011 | \$600 | Database Development | Completed | [Job Details](#) ▾

Feedback Comments:
"Where do I begin with this review, this contractor is one of the BEST out there, he is very professional and knows what he is doing, not only that he created my project for me in a timely manner (finished before the deadline in 6 days) but also stayed with me and made sure it does work on my server, I had few obstacles with my server which has nothing to do with his work, yet he stayed there with me and fixed it for me so the product works 100%. I really appreciate all the efforts in this and would totally do business with again. *I wish all free lancers were as good as 4axiz"
